RESUME SUMMARY

Energetic Computer Science graduate with a passion for coding and a knack for network and system design. Seeking a dynamic role to unleash creativity in C, Python, and Java, collaborating with diverse teams to drive innovation and continuous improvement. Ready to make waves in tech with a commitment to crafting solutions that precisely meet client needs.

EDUCATION

Graduation

Course	B.E (computers)
College	IFET College of Engineering, Villupuram.
Year of Passing	Graduating in Jul 2024
Score	8.29/10

Schooling

	Class XII	Class X
Board Name	Tamil Nadu	Tamil Nadu
Medium	English	English
Year of Passing	2020	2018
Score	58%	71%

PROJECTS

SEISMIC TREMOR ALERT AND DOWNPOUR CAUTION

-The goal of this project is to identify seismic tremors and downpours so that we can issue real-time alert warnings when they may result in earthquakes and rain.

REACTQR GENERATOR

-Developed a QR Code Generator using ReactJS, showcasing proficiency in front-end development. Integrated APIs seamlessly for enhanced functionality, highlighting adaptability and technical skill. Empowered users to generate QR codes effortlessly, demonstrating a commitment to practical web solutions.

MACHINE LEARNING BASED AUTOMATED GRADING SYSTEM FOR STUDENT EXAM PAPERS USING A HANDWRITTEN TEXT RECOGNITION TECHNIQUE.

-The goal of this project is to use machine learning to automate the process of descriptive paper evaluation.

INTERNSHIP - Virtual Mode

Phoenix Research & IT Solutions | July 2022 - August 2022

-During this internship, I gained valuable insights and practical experience in a professional work environment. Inspired by this exposure, I conceived an idea for developing a Java web application.

TOOLS

- Figma
- Adobe XD
- Canva
- VsCode
- Wordpress
- MySQL
- Xampp
- Eclipse IDE
- Power BI

FRAME WORK

- Streamlit
- Django

PROFESSIONAL TRAINING

- C2TC Program, TNS Foundation under Capgemini Project.
- Completed training in Java Full-Stack Development and Soft Skills.
